

SAFEGUARD ARMOUR

BROCHURE 2018
2019

INTRODUCTION

SAFEGUARD ARMOUR

As the leading designer of premium body armour, our goals are to deliver the best armour carrier systems to military, law enforcement and private security forces across the world. Our range of carriers are made from the highest quality materials available on the market. Our vests have been carefully engineered and manufactured to meet the perfect balance between comfort and protection.

Our body armour is also 100% customisable with multiple protection and threat options available. If you want protection, you can rely on SafeGuard Armour. SafeGuard Armour has offices in Leeds, UK, and Colorado, US. These offices house complete research and development and production facilities with the capability of producing and distributing a wide range of body armour. The products we offer includes a range of bulletproof, stab-proof, spike-proof vests, hard armour plates and ballistic helmets.

CAPABILITIES

Our production facilities (20,000 sq ft) are equipped with a range of high-quality equipment that increases efficiency and the scale of production. Our headquarters house our sales and marketing, customer services, accounts, and the technical teams. Each team provides detailed records and statistics of their work to allow for continual research and improved efficiency. Our consistent research uses statistical analysis and dedicated equipment to continually develop and improve all our products, these are regularly passed on to customers and clients for constant feedback.

Up to 1000 vests	6-8 Weeks
Up to 10000 vests	10-12 Weeks

SafeGuard products are compliant with the following standards:

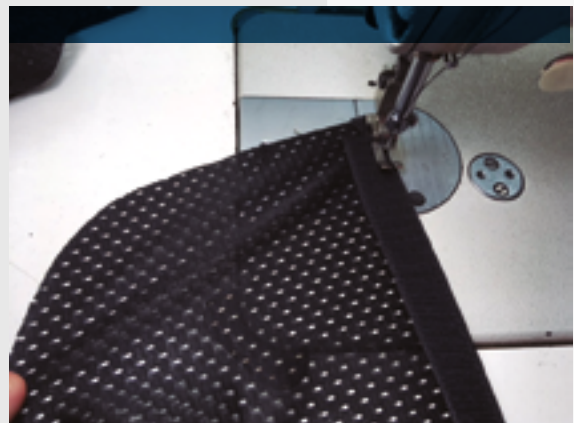

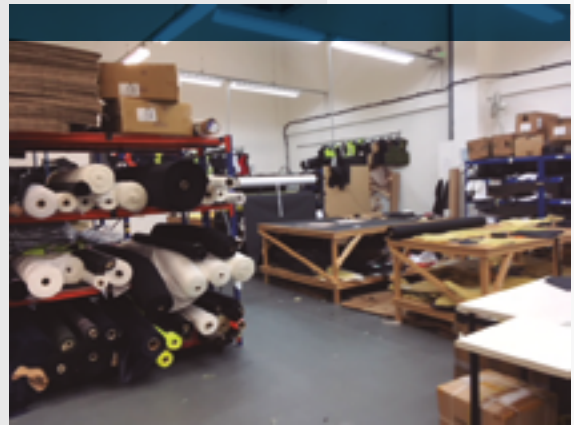

NIJ STANDARDS - 0101.06 (BALLISTIC RESISTANCE)

NIJ STANDARDS - 0115.00 (STAB & SPIKE RESISTANCE)

HOSDB BODY ARMOUR STANDARDS (BALLISTIC, STAB & SPIKE RESISTANCE)

RESEARCH, DEVELOPMENT AND MANUFACTURING FACILITY

All our core products can be adapted to fit your requirements, whether this be patches for logos, or certain pocketing options. All our items are 100% customisable.

HARD ARMOUR PLATES

LEVEL III ICW

FEATURES

- Lightweight
- Weather resistant
- 10"x12"
- Shooters cut
- Single curve

WEIGHT

- 1.95kg (Model - PAI003)
- 1.7kg (Model - PSI003)
- 1.25kg (Model - PEI003)
- 1.0kg (Side plate) (Model - PSI003S)

Also available in multicurve or as a side plate (6"x8")

LEVEL III SA

FEATURES

- Lightweight
- Weather resistant
- 10"x12"
- Shooters cut
- Single curve

WEIGHT

- 2.2kg (Model - PAS003)
- 2.0kg (Model - PSS003)
- 1.5kg (Model - PES003)
- 2.4kg (Multicurve) (Model - PAS003M)
- 2.1kg (Multicurve) (Model - PSS003M)
- 1.1kg (Side plate) (Model - PAS003S)

Also available in multicurve or as a side plate (6"x8")

LEVEL IV ICW

FEATURES

- Lightweight
- Weather resistant
- 10"x12"
- Shooters cut
- Single curve

WEIGHT

- 2.45kg (Model - PAI004)
- 2.1kg (Model - PSI004)
- 2.85kg (Multicurve) (Model - PAI004M)
- 2.4kg (Multicurve) (Model - PSI004M)
- 1.25kg (Side plate) (Model - PAI004S)

Also available in multicurve or as a side plate (6"x8")

LEVEL IV SA

FEATURES

- Lightweight
- Weather resistant
- 10"x12"
- Shooters cut
- Single curve

WEIGHT

- 2.73kg (Model - PAS004)
- 2.4kg (Model - PSS004)
- 3.1kg (Multicurve) (Model - PAS004M)
- 2.6kg (Multicurve) (Model - PSS004M)
- 1.4kg (Side plate) (Model - PAS004S)

Also available in multicurve or as a side plate (6"x8")

All our plates can come with Polyurea Coating if required, this offers increased protection, as well as protects our plates from substances such as sea water and oil.

BALLISTIC LEVEL 2 PANEL

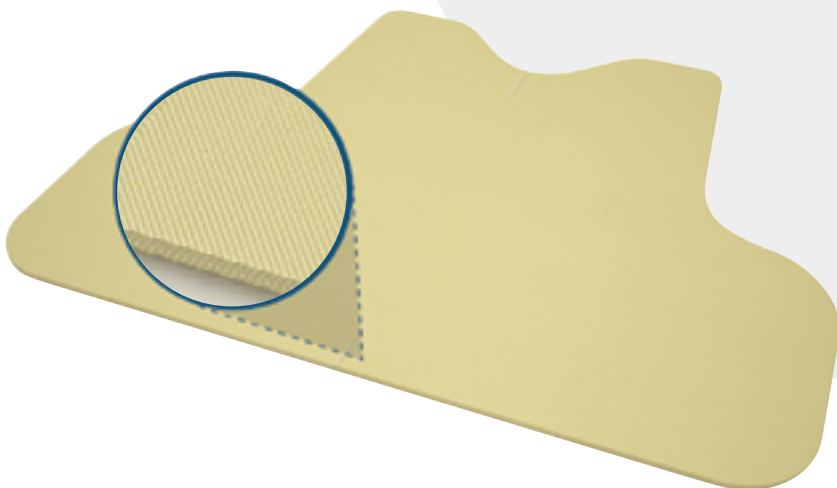

FEATURES

Specification (Based on size large):

- Area - $.30m^2$
- Thickness - 4mm
- Weight - 1.27KG (Set of panel inserts)
- Areal density - $4.23kg/m^2$

BALLISTIC LEVEL 2, STAB 1 PANEL

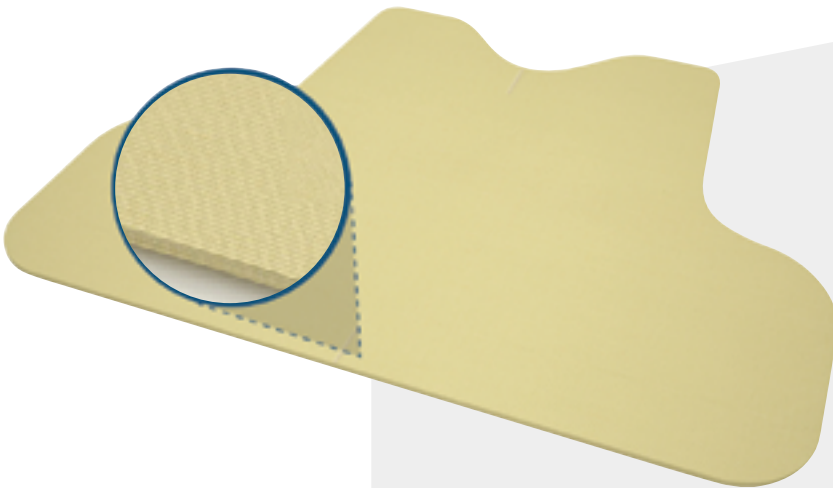

FEATURES

Specification (Based on size large):

- Area - $.30m^2$
- Thickness - 7mm
- Weight - 1.8KG (Set of panel inserts)
- Areal density - $6kg/m^2$

BALLISTIC LEVEL 2, STAB + SPIKE 1 PANEL

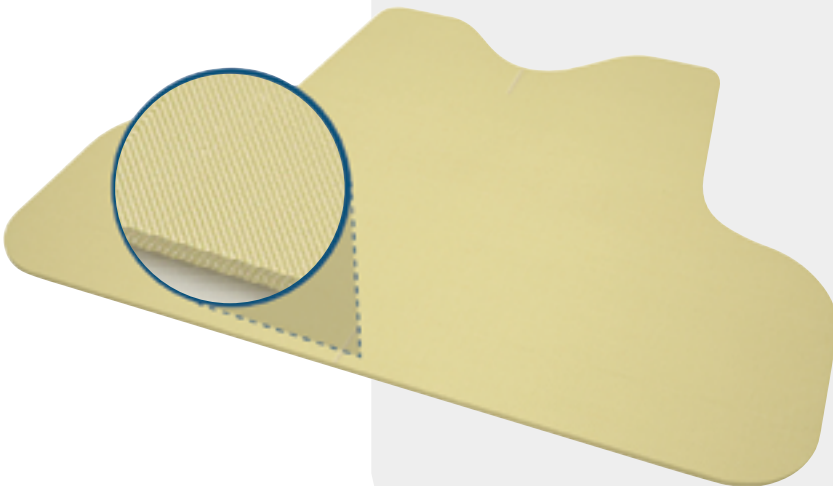

FEATURES

Specification (Based on size large):

- Area - .30m²
- Thickness - 7mm
- Weight - 2.1KG (Set of panel inserts)
- Areal density - 7kg/m²

BALLISTIC LEVEL 2, STAB 2 PANEL

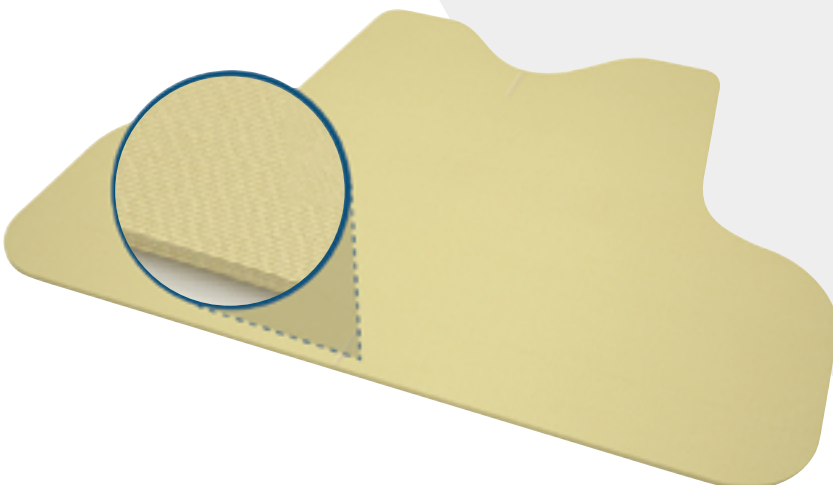

FEATURES

Specification (Based on size large):

- Area - .30m²
- Thickness - 8mm
- Weight - 2.3KG (Set of panel inserts)
- Areal density - 7.7kg/m²

BALLISTIC LEVEL 2, STAB + SPIKE 2 PANEL

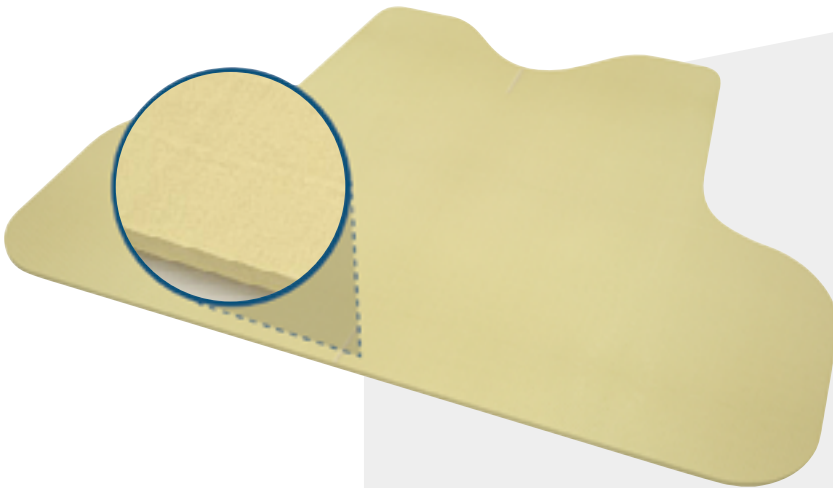

FEATURES

Specification (Based on size large):

- Area - .30m²
- Thickness - 8mm
- Weight - 2.3KG (Set of panel inserts)
- Areal density - 7.7kg/m²

BALLISTIC LEVEL 3A PANEL

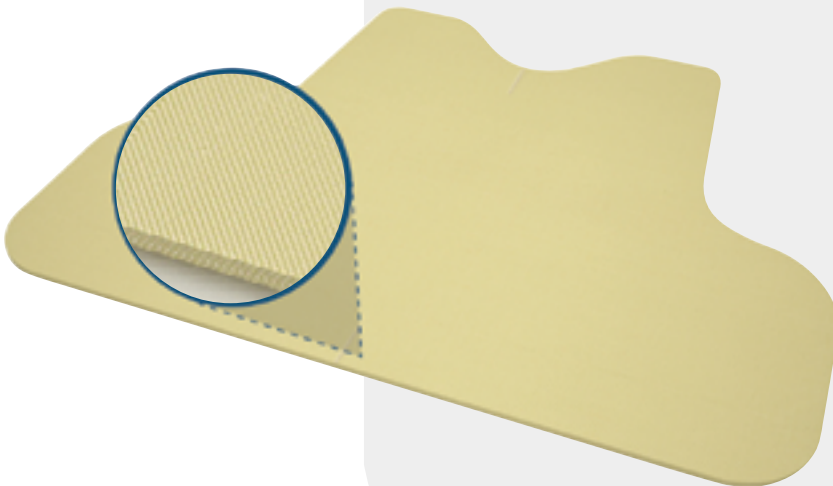

FEATURES

Specification (Based on size large):

- Area - $.30m^2$
- Thickness - 6mm
- Weight - 1.76KG (Set of panel inserts)
- Areal density - $5.87kg/m^2$

BALLISTIC LEVEL 3A, STAB 1 PANEL

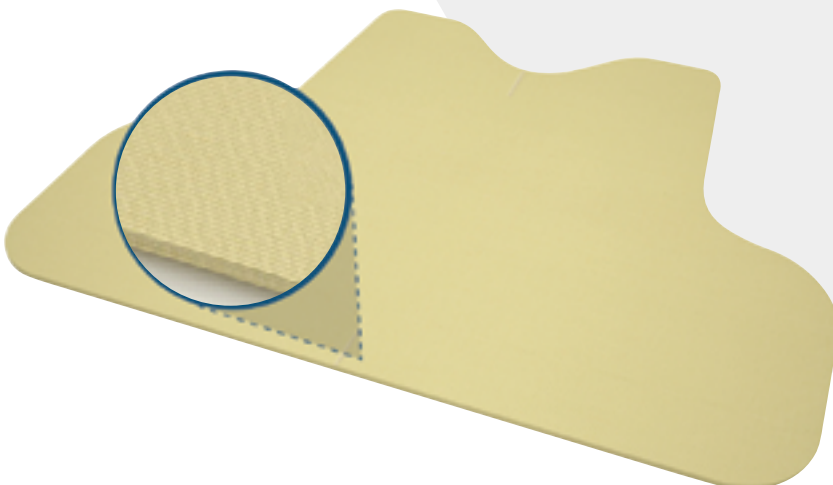

FEATURES

Specification (Based on size large):

- Area - $.30m^2$
- Thickness - 7.4mm
- Weight - 1.92KG (Set of panel inserts)
- Areal density - $6.4kg/m^2$

BALLISTIC LEVEL 3A , STAB + SPIKE 1 PANEL

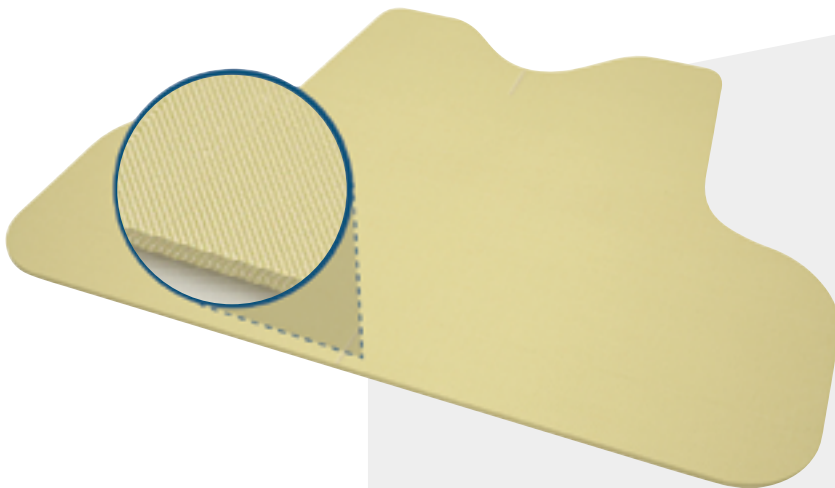

FEATURES

Specification (Based on size large):

- Area - $.30m^2$
